

WHEN IT COMES TO CLEANROOM MASKS, **MAKE SURE. MAKE IT PUREZERO*.**

Your cleanroom efficiency depends on effective risk management. Make sure your masks are up to the task with HALYARD* **PUREZERO*** HM4 Non-Sterile Face Masks. They're specifically designed to meet the stringent requirements of cleanroom environments, so they help you:

- **Manage user comfort and protection** with our exclusive SO SOFT* inner lining, a foam nose band for comfort and fog reduction, plus a pouch version with a large breathing chamber.
- **Manage product contamination** by providing high particle, bacterial, and viral filtration efficiency – with **PUREZERO*** Masks recommended for ISO Class 4 or higher and Grade B/C/D cleanrooms.
- **Manage supply reliability** with **PUREZERO*** Masks manufactured in our own facilities with raw materials and components traceable to the original supplier. Our global product codes let you use one SKU globally.

Ideal for electronic, semiconductor,
pharmaceutical and biotechnology
applications
